## PRE-CONFERENCE WORKSHOP

(All CE/CLEs are pending; schedule is subject to change)

**THURSDAY, AUGUST 8 FROM 8:30AM TO 12NOON**

*This pre-conference workshop is brought to you by TAANA, in partnership with the Nurses Service Organization (NSO).*

**NSO Workshop: Nurses and the Non-Adherent Patient: Protecting Yourself from Liability**

**Room: Great Lakes AC / Cost & Registration: \$50.00 per person.**

### **Description:**

Patient non-adherence can come in many forms: unwillingness to follow a course of therapy, repeated missed appointments, rejecting treatment recommendations, reluctance to take medications, refusal to provide information or chronic late payments. If left unchecked, such conduct may result in litigation. The objective of this presentation is to discuss the legal elements and concept of contributory negligence, and empower nurses with strategies to not only recognize these patient behaviors but also take steps to reduce the likelihood of malpractice claims. Using selected claim scenarios, NPs, RNs and LPNs/LVNs can examine their own current risk control practices in relation to the claims and losses experienced by their peers.

### **Objectives:**

1. Define legal elements and concept of contributory negligence (TAANA).
2. Identify a nurse's legal obligation and level of documentation necessary when dealing with this type of patient (TAANA).
3. Understand the factors that determine patient adherence (NSO).
4. Recognize the role that the patient, external factors and providers play in patient adherence (NSO).
5. Identify leading risk management techniques that NPs, RNs, LPNs/LVNs, and NPs can incorporate into their practice to help promote patient adherence (NSO).

### **Course Outline:**

1. Elements and concept of contributory negligence (60 minutes)
  - Malpractice Lawsuits
  - Documentation Do's and Don't's
2. Malpractice Risks (60 minutes)
  - Legal Cases Highlighting Non-Adherent patients and outcomes
  - Determinants of Patient Adherence
  - Claim Metrics for malpractice lawsuits against nurses
3. Risk reduction recommendations (45 minutes)
  - Communication as a tool to reduce risks
  - Special considerations for managing angry patients, minors, and when to terminate a patient
  - Self-assessment checklist
4. Q&A (15 minutes)

### **Faculty:**

2. Understand and evaluate the role of the union as a whole as well as union stewards, labor reps, and other union personnel in assisting nurses both in and outside of investigations and disciplinary actions.
3. Offer feedback on how you can better leverage unions in individual representations as well as how the union could better leverage licensure defense attorneys.
4. Identify how hospital disciplinary actions and union representation therein can impact later licensure proceedings (and vice versa).

#### **Course Structure:**

2 hour lecture/dictation followed by a 1-hour panel conversation (panel participants tbd)

#### **Faculty:**

(image 1: Guthrie Theater exterior; image 2: Guthrie Theater exterior; Source <https://www.guthrietheater.org>)

### Lights, Camera, ACTION!

Join your friends and colleagues at the Guthrie Theater on Friday evening for a one-of-a-kind all-inclusive dinner and entertainment experience. Your evening includes dinner at Level 5 restaurant and a ticket to the famous musical *Guys & Dolls*.

The Guthrie Theater opened on May 7, 1963. The idea for the theater began in 1959 during a series of conversations among Sir Tyrone Guthrie and two colleagues – Oliver Rea and Peter Zeisler – who were disenchanted with Broadway. They wanted to create a resident theater that would perform the classics with the highest professional standards.

The Guthrie symbolized for many the birth of the not-for-profit resident theater movement. Today, the theater's pursuit of artistic excellence has remained constant, though much has changed.

What began as a summer season of four productions supported by a minimal staff is now a complex organization operating year-round and employing more than 500 people.

### Luck Be a Lady!

A swinging tale of gangsters, gamblers, and dolls, *Guys and Dolls* is one of the all-time classic American musicals. The show originally premiered on Broadway in 1950, and picked up five Tony Awards, including Best Musical. Five years later it was adapted for the silver screen with Frank Sinatra and Marlon Brando. The story follows the escapades of gamblers Nathan and Sly, who are prepared to bet it all for love.

Set on the glittering, jazz age street of New York, *Guys and Dolls* features numerous classic numbers, including 'Sit Down, You're Rockin' the Boat,' 'Luck Be a Lady,' and 'My Time of Day'. This Guthrie production is sure to be an evening to remember!

### Itinerary and Registration

## GETTING AROUND MINNEAPOLIS

### BIKING

The city of Minneapolis joined forces with Nice Ride a nonprofit based in Minneapolis, beginning in 2008 to launch a bike-sharing pilot. The program eventually expanded to St. Paul, and there are now 1,850 of the lime green Nice Ride bikes across the Twin Cities. Cost is \$2 for a single ride and another \$6 for a day pass. Customers who use that system must return the bikes to one of 200 gray stations and lock them up after each trip.

### METRO, BUS AND TAXI

The METRO system is a network of transit ways with frequent, all-day service between stations with enhanced amenities. Some METRO lines use trains, others use buses. Whether it runs on a road or on tracks, customers can expect trips at least every 15 minutes throughout most of the day.
